

CURTIS Grind 21

Description

CURTIS Grind 21 is a (non water-miscible) metal working fluid, based on refined mineral oils with additives.

Technical Data

	values
colour	yellow
density (15 °C)	0,87 g/cm ³
viscosity (40 °C)	21 mm ² /s
flash point	150 °C
Cu-corrosion (3h/100 °C)	1

Applications

CURTIS Grind 21 is used as universal grinding and cutting oil of ferrous and non-ferrous materials.

operation	materials
<ul style="list-style-type: none">Grinding (tool grinding, ect.)	(unalloyed + alloyed) steel
<ul style="list-style-type: none">General machining (drilling, turning, milling)	(unalloyed + alloyed) steel, non-ferrous materials

CURTIS Grind 21 is used as neat oil by conventional supply.

Special features

- ✓ Resistant to ageing and oxidation
- ✓ High surface quality
- ✓ Longer wheel life
