

## CURTIS Grind V 071880\_BG6

### Description

**CURTIS Grind V 071880\_BG6** is a metal working fluid, not water-miscible, based on high-refined mineral oil and is mainly used as grinding oil for carbide.

### Technical data

Typical data			
colour:	colorless	Flash point:	ca. 130 °C
density (15 °C):	0,82	Cu-corrosion (3h/100°C) :	1 a
Viscosity (40°C):	6 mm <sup>2</sup> /s		

### Applications

**CURTIS Grind V 071880\_BG6** is preferably used for:

operation	materials
grinding Belt grinding	carbide, non-ferrous metals non-ferrous metals, steel

The product is used as neat oil by conventional supply.

### Special features

- ◇ *Colorless, therefore good observation of the workpiece surfaces*
- ◇ *Good oxidation stability*
- ◇ *Consistent removal rate over a long period*

All data given in this Product Data Sheet are typical of this material. It does not however constitute a specification.
